

JAS OCEANIA KALGOORLIE BRANCH IS NOW OPEN.

JAS has recently opened up their 30th branch site in the WA Goldfields area, continuing with the company's strategy of having a great range of products closer, for our customers to capitalise on sooner for their demand and benefit. The Goldfields Western Australia is an expanding Mining region encompassing towns including Kalgoorlie, Kambalda, Coolgardie, Southern Cross, Merredin, Leonora, Laverton, Leinster, and Menzies.

Kalgoorlie was selected as the preferred site for the branch, due to its central location to majority of the area's customer base and its proximity to all major freight hubs. It also runs off the main Grt Eastern Hwy, making it easy for customers to access, which will

allow it to service the area well. Leading the Team at Kalgoorlie is a long-time great local Chris Hartshorn. He has a very strong background in the industry, having worked the past 15 years supplying parts to the Auto Electrical industry and knows all the people very well too.

Another long-term local Tanya Hartshorn has come on board as well to undertake a sales and stores role too.
