

**Delphi: A world of aftermarket expertise, all built from our OE origins.**

For more than a century, Delphi has been making the parts cars are born with - often developing new technologies in the process. Delphi are proud of their OE heritage, and over the years they have used that experience to expand into a global aftermarket supplier.

### **The Delphi Difference**

A complete range of OE and aftermarket parts and components that are developed and manufactured to OE standards. Decades of expertise and innovation

### **Why Delphi?**

As a partner to 25 of the largest vehicle manufacturers globally, we are the company who makes the parts the cars are born with. High standards. Below the surface. It's what's underneath that sets apart a true original. Bringing OE expertise to the world.

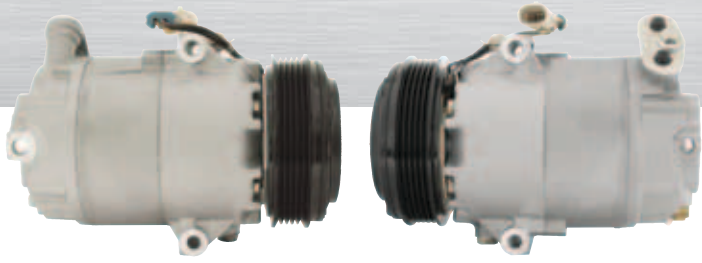

**JAS Oceania are now a proud national distributor of Delphi Australia.**
