

Australia's Automotive  
Electrical Specialist

# New LV Automotive Lighting Catalogue has just landed !

JAS Oceania is pleased to announce the launch of our latest LV catalogue with 204 full colour pages of quality lighting products. Covering across all key sections of the lighting category it is a must have for every Auto Electrical Workshop.

All the latest quality home brand lighting products, available from JAS are in this new catalogue, including LV, Light2, Titan, Tungfram, Weldex and Zeta.

With easy-to-use navigation including 11 colour coded category sections, plus a fast find features makes finding the correct parts a breeze.

Find the correct size and specification of driving lights and light bar combinations at the tip of your fingers with the additional quick look up option saving you searching through every page. We have also added switches & pilot lamps to the accessories section, so you have all associated products in one booklet.

Contact your JAS representative or branch for your copy today.  
Check out the digital version here.
