POWERCON

WORKSHOP BATTERY MANAGEMENT SERIES

Powercon has expanded its range of workshop battery management products to include the latest in Digital and analogue display battery testers & Battery analysers. The Powercon range is designed for use in all conditions from home DIY handyman to an everyday workshop professional.

DIGITAL BATTERY TESTER WITH PRINTER
LV8111

Barcode: 9342828118118

Feature:

• Digital LCD display

• Detachable thermal printer

• Alternator & Starter Motor tester

• 100-1400 CCA range

• Improved High/Low voltage capture

• Quick results with data storage option

• Voltmeter mode

• Easy to use

• Bad cell detection

DIGITAL BATTERY TESTER
LV8110

Barcode: 9342828118101

Feature:

• Digital LED display

• Alternator & Starter Motor tester

• 100-1400 CCA range

• Improved High/Low voltage capture

• Voltmeter mode

• Easy to use

• Bad cell detection

VARIABLE LOAD CARBON PILE BATTERY TESTER
LV8102

Barcode: 9342828118095

Feature:

• Suitable for testing 0-16V Lead acid batteries

• Variable load adjustment

• 50-500 Amp testing range

• Separate large dual colour volt & ammeter

• 100-1000CCA (160Ah) meter scale

• Heavy duty copper clamps

WORKSHOP   **LARGE DUAL ANALOGUE DISPLAY**   **0-16V DISPLAY**

COMPACT BATTERY LOAD TESTER
LV8101

Barcode: 9342828118088

Feature:

• Suitable for testing 6 & 12V Lead acid batteries

• 100 Amp @ 12V, 50 Amp @ 6V testing range

• Large colour voltmeter

• 200-1000CCA meter scale

• Rocker switch

• Maximum load time 10 seconds

WORKSHOP   **LARGE ANALOGUE DISPLAY**   **0-16V DISPLAY**

COMPACT CIRCUIT TESTER
LV8100

Barcode: 9342828118071

Feature:

• 12/24V probe circuit tester

• Easy to use

• LED indicator

• Alternator charge testing
