

SINGLE PACK

TRAILER BREAKAWAY SWITCH

The Breaksafe Breakaway Switch now comes with the new coil cable & stainless steel quick release clip for easy connection to the tow vehicle. This also makes the connection to the tow vehicle much tidier. No more wrapping the wire up to stop it dragging on the ground.

The new coil cable stretches to 1.2m for connection to the tow vehicle & then compresses back to only 100mm long when disconnected.

Features:

- New coil cable
- Stainless steel quick release clip
- Stainless steel mounting bracket
