BACKUP/SOLAR

Key advantages of REMCO Lithium

Light Weight vs traditional batteries

3000+ recharge cycles up to
5 times more compared to AGM

Less maintenance and no sulfation

100% Amp hour capacity available

Faster recharge vs traditional batteries

Connect up to 48V in series or
4 batteries in parallel

Smart Battery Management

The Smart BMS built in Bluetooth app has been designed to keep you informed, ensuring safe operation and maximum service life.

- On-demand State of Charge % and capacity monitoring
- Amp meter – easy appliance current monitoring
- Charging / discharge Control Switch
- Battery Health Indicators:
- Individual cell voltage / balance
- Temperature of the cells
- Health rating
- Real-time trouble-shooting alerts
- Recharge cycle counter
- Historical data display
- Connectivity distance up to 10m

* REMCO APP not available with REMCO XTRA Slimline range.
