

# BR7 SERIES

# ROADVISION™

## FEATURES

- Multi-volt 10-30V input & low current draw
- Brighter than conventional incandescent systems
- 100,000 hour LED life span with solid state technology
- Maintenance free
- Tough ABS housing and sealed polycarbonate lenses
- Water and dust proof
- Vibration resistant
- Compact body allows fitment into tight applications
- Fixed or self-adhesive mounting options
- Black or chrome bracket options
- Supplied pre-wired
- Easy 2 wire installation or LEDLink Connector
- ADR approved

ROADVISION's BR7 Series LED marker lamps are the perfect solution for anyone looking for a lighting option that is brighter, safer, stronger, easier to fit, longer lasting, better looking and ADR approved. These lamps are available in a variety of mounting options, including fixed mount, self-adhesive mount, black bracket, and chrome bracket, making them incredibly versatile. Featuring maintenance-free LED technology, the BR7 Series LED marker lamps offer a higher level of durability and visibility, which in turn provides increased safety on the road. Compared to incandescent lamps, these marker lamps produce more light output while consuming only a fraction of the current. Additionally, the unbreakable polycarbonate lenses and extremely tough ABS plastic housing make these lamps dust and water proof, while also providing a longer lifespan rated at 100,000 hours. With ROADVISION, you can fit and forget your marker lamps, as they require no maintenance and provide exceptional performance for years to come. Choose the mounting option that best suits your needs and experience the benefits of brighter, safer, and longer-lasting lighting with ROADVISION's BR7 Series LED marker lamps.
