

TESTERS

Timing Light

7023

Timing Light with stroboscope for precise timing adjustment of all petrol engines. Features corrosion and impact resistant housing and inductive clamp.

VRated 12V DC

Spare Parts 9.7023.01 Xenon flash tube
9.7022.02 Inductive clamp

Pocket Motor Tester

7025

Pocket Motor Tester for 4, 6 and 8 cylinder engines. Compact design for easy storage. Suitable for 12V DC electrical systems.

VRated 12V DC

Test Range Voltage 0-16V DC
Current 0-60A
Resistance 0-200 Ohm, 0-20kOhm

Dwell 30°-90°
20°-60°

RPM High 10-6000
Low 0-1600

Power Supply 1.5V AA Penlight Battery (not included)

Profi Motor Tester

7024

Motor Tester with dwell-angle meter and rev-counter, voltmeter, ammeter, ohmmeter and contact-breaker-points display (12V). Impact- and corrosion-resistant housing.

VRated 12V DC

Test Range Voltage 0-16V DC
Current 0-60A
Resistance 0-200 Ohm, 0-20kOhm

Dwell 0°-90°

RPM 0-6000

Power Supply 1.5V AA Penlight Battery (not included)

Compression Tester

7026

For spark-plug holes of either 14 or 18mm diameter. Diagnosing different cylinder compression values early enough prevents possible later engine damage.

Test Range 0-21 bar (0-300psi)

Spare Parts 7029 Universal push-in adaptor
