

Testers

LV56-925

Battery Analyser

- Tests all Types of Lead Acid Batteries Wet, Maintenance Free, Ca/Ca, Gel & AGM
- Operating voltage 8 - 15V
- Test Range 200 - 1200 CCA
- Simply connect to battery & follow the step step instructions on the display

E55-2014

Digital Battery System Analyser

- Digital Battery System Analyser
- LED Display
- Suits: 12V Charging Systems
- Test Batteries Down to 7 Volt
- Features: Battery Test, Charging Test
- Checks Cranking & Charging Voltages

E55-2010

Digital Battery System Analyser

- Digital Battery / Starting / Charging System Analyser
- LCD Display
- Suits: 6, 12 & 24V Charging Systems
- Test Batteries Down to 1.5 Volt
- Features: Battery Test, Charging Test
- Checks Cranking & Charging Voltages

E58-2030

Battery & Electrical System Tester

- Tests Batteries From 200-850 CCA
- Tests Battery, Starter & Charging System
- Accurate Test Decision in Seconds
- High/Low Voltage Capture for Starter/Charging System Testing
- Bad Cell Detection
- Voltmeter mode for Starter & Charging Systems
