

Murphy Instruments

Murphy Diesel Fuel Shut Off Valve

- Diesel Fuel Shut Off Valve
- Normally closed contacts which open when current is supplied from the battery through a shutdown relay
- Temperature, level or pressure switch gauges installed trip the magnetic switch breaking the circuit from the battery closes the valve & stops the engine
- Fittings: 1/4" NPT Inlet & Outlet with 3/16" orifice
- Can be used in applications up to 30 PSI

Part No.	Voltage
E65-SV123	12V
E65-SV243	24V

Murphy Diesel Fuel Shut Off Valve

- Diesel Fuel Shut Off Valve
- Normally closed contacts which open when current is supplied from the battery through a shutdown relay
- Temperature, level or pressure switch gauges installed trip the magnetic switch breaking the circuit from the battery closes the valve & stops the engine
- Fittings: 1/4" NPT Inlet & Outlet with 3/16" orifice
- Can be used in applications up to 15 PSI

Part No.	Voltage
E65-SV124	12V
E65-SV244	24V

Murphy Shutdown Relay 12/24V

- Murphy Shutdown Relay
- Normally Closed Contacts

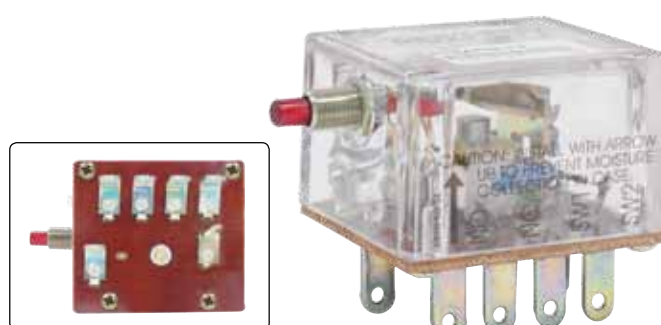

Part No.	Voltage
E65-117PH	12/24V

Murphy Shutdown Relay

- Murphy Shutdown Relay
- Normally Open & Normally Closed Contacts

Part No.	Voltage
E65-518APH12	12V
E65-518APH24	24V

E65-ESP100

Murphy Pressure Sender

- Murphy Pressure Sender 100 PSI 1/8" NPT
- Suits [E65-EGS21P100](#)

E65-EST25002

Murphy Temperature Sender

- Murphy Temperature Sender 0-250°F 1/8" NPT
- Suits [E65-EGS21T250](#)
