

The XP300 from Electromem is an entry level easy to use battery tester to accurately test 12V lead acid-batteries including AGM, Wet, Maintenance Free, Gel and Ca/Ca and five different battery standards including SAE, DIN, EN, IEC & JIS.

It provides the user with an easy to read LCD display showing the battery voltage and an LED/indicator with showing the status.

FEATURES:

- Battery Test: 12V
- Starter Test: 12V
- LCD Display with LED indicators
- Operation Range: 40-2000CCA (SAE)
- Voltmeter Range: 9-15V DC
- Test Leads: 80cm
- Packaged in an attractive blister pack
- Dimensions: 80 x 180 x 80mm
- Weight: 0.25Kg
