# AGM Dual Purpose

4X4 STARTER BATTERY

RV/CAMPING

MARINE

## The REMCO Dual Purpose range is the first suitable REMCO battery for under-bonnet installation.

The REMCO AGM Dual Purpose range is a high-cranking and deep-cycle battery in one. Designed for versatility, the AGM Dual Purpose battery has the capability of working as your starter battery or secondary deep-cycle auxiliary power source.

Rest assured that your REMCO can handle the demanding requirements of repeated deep cycle discharges or repeated high cranking discharges, depending on your needs.

### Key advantages of AGM Dual Purpose

High cranking

Deep cycle capability

Suitable for under-bonnet installation

Dual Battery Systems

Flexible mounting  
Spill-proof multi position fitment

Longer shelf-life versus conventional batteries

Superior construction  
greater cycle life vs conventional batteries

| Code      | Case   | Term | Volts | CCA | Ah C20 | Dimensions (mm) |     |     | Weight (KG) |             |
