

LED Safety Spot's

FEATURES

- Multi-volt 10-80V input & low current draw
- 540lm blue spot beam
- 2 high performance 3 watt LED's
- Provides additional workplace health & safety
- 100,000 hour LED life span with solid state technology
- Maintenance free
- Polycarbonate lens & die-cast aluminium housing
- IP67 waterproof
- Reverse polarity & over/under voltage protected
- Simple pendant mount & 2 wire connection

Roadvision's RVFBS6 Series LED blue spot warning light is a must for all materials handling and warehousing environments. Fitted to forklifts, the RVFBS6 Series spot lights shine a blue spot beam on the warehouse floor behind the vehicle, providing a visual warning for both pedestrians and other equipment operators, drastically improving workplace safety. Built with reliability in mind, the RVFBS6 feature an ultra-durable polycarbonate lens & die-cast aluminium housing, plus high quality long life LED's (100,000 hour lifespan), providing long term maintenance free operation.

PART NUMBERS

RVFBS6

Blue Spot LED Forklift Safety Lamp 10-80V 93 x 60mm 6W

SPECIFICATIONS

	RVFBS6
Number of LED's	2
Light Output	540lm
Watts	6 Watts
Input Voltage	10-80V
Current Draw	0.50 Amps @13.8 Volt DC
IP Rating	IP67
Dimensions	92.4 x 61.3 x 60mm
Wiring	Pre-wired
