

HIGH CAPACITY FLASHER UNITS

**3026**

High Capacity Flasher Unit - 2 Pin, 12V DC

Designed to take up to 210W loads. Reverse-polarity protected, polycarbonate cover, silver contacts. Clear audible signal.

Voltage 12V DC

Max Load 1-10 x 21W

Pin & Wiring

Note For common pin designations, refer to page 395

**3027**

High Capacity Flasher Unit - 3 Pin, 12V DC

Designed to take up to 210W loads. Reverse-polarity protected, polycarbonate cover, silver contacts. Clear audible signal.

Voltage 12V DC

Max Load 1-10 x 21W

Pin & Wiring

Note For common pin designations, refer to page 395

**3028**

High Capacity Flasher Unit - 3 Pin, 24V DC

Designed to take up to 210W loads. Reverse-polarity protected, polycarbonate cover, silver contacts. Clear audible signal.

Voltage 24V DC

Max Load 1-10 x 21W

Pin & Wiring

Note For common pin designations, refer to page 395
