

New Product Release March 2015

Product Supersession Release

783XD Series – LED Heavy Duty Worklamp

The 783 series had received an upgrade! The two major upgrades involve the lumen output increasing from 430 to 485 effective lumens and the housing material changing from Die-Cast Aluminium to the XD Series, Thermal Polycarbonate.

The size and power of this unit makes it universal but is perfect for vehicles like forklifts and 4WD's.

General Specifications

Lens Pattern: Flood
Lens Material: Polycarbonate
Housing Material: Polycarbonate
Mounting Hardware: (x1) 3/8"-16 x 1.00" Mounting Bolt
Mounting: Universal Pedestal Mount
Connector: Integrated 2-Pin Deutsch Weather-Proof Socket (DT04-2P)
Mating Connector: 2-Pin Deutsch Weather-Proof Plug (DT06-2S)

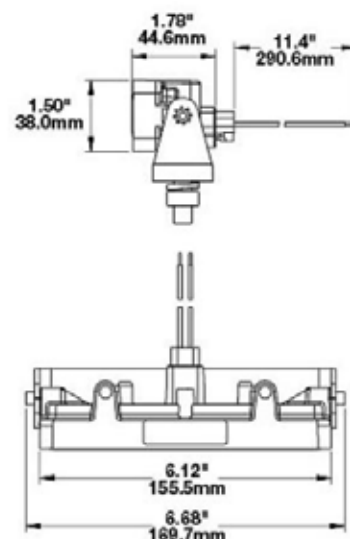

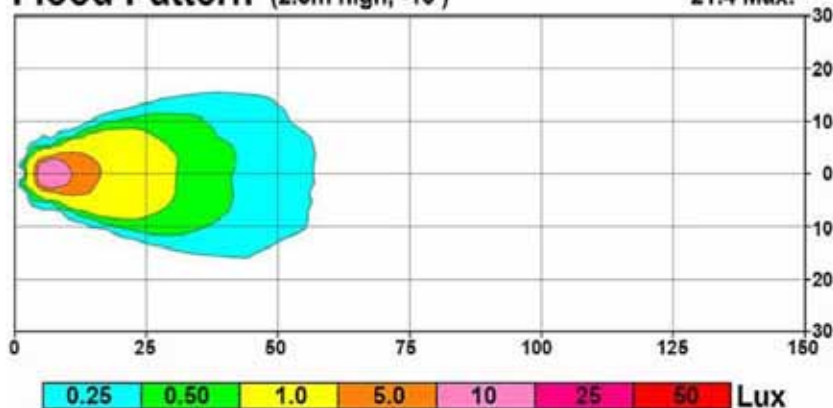

Technical Specifications

12-24V DC Input
9-60V DC Operating Voltage
1.00 Amps @ 12V DC
0.50 Amps @ 24V DC
0.30 Amps @ 36V DC
0.25 Amps @ 48V DC
Raw Lumen Output: 675
Effective Lumen Output: 485

Standards Compliance

- UL Listed
- IEC 60529
- Sealed to IP67

Flood Pattern (2.5m high, -15°)
