

VDO INSTRUMENTS

SINGLE PACK

VDO

VDO COCKPIT VISION VOLT METER

- 12V
- Ø52mm

PRODUCT INFORMATION

Part no.	Voltage	Size	Range
332010004	12V	52mm	8 - 16V

VDO COCKPIT VISION AMP METER

- 12V
- Ø52mm
- Ammeters with internal shunt are easily identified by the heavy duty threaded terminals on the back of the instrument

PRODUCT INFORMATION

Part no.	Voltage	Size	Description
190077006	12V	52mm	30-0-30A gauge

VDO GAUGE CHECK

The VDO gauge check helps determine whether the electric gauges fitted to your vehicle are functional & accurate without having to remove them.

- Suitable for testing automotive, commercial & marine gauges
- Used to check functionality & confirm the resistance range of most gauges for more accurate sensor matching

Note: Not suitable for capacitive, bi-metallic or 0-5V systems

PRODUCT INFORMATION

Part No	Description
105.001	Tester for resistive gauges 2-500 Ohms
