

GC019

12V PLUG 12 FOOT EXTENSION CABLE

- Extend the reach of your favourite 12V devices, like a tyre inflator, vacuum & more
- Water resistant cap to protect the female plug socket from the elements
- Built in 20A fused connection for protection against short circuit
- High conductivity 16 AWG copper wire rated at 15A
- Molded strain reliefs prevent unwanted strain on the wire connections

GC020

12V PLUG 2 WAY SPLITTER

- Power two 12V devices at the same time, like a tyre inflator, vacuum & more
- Water resistant cap to protect the female socket from the elements
- High conductivity 16 AWG copper wire & rated capacity of 15-amperes
- Molded strain reliefs prevent unwanted strain on the wire connections

GBC003

HD PRECISION BOOST BATTERY CLAMPS

- Heavy duty battery clamp designed for both 12V gas & diesel engines
- Needle nose clamp profile for jump starting hard-to-reach & oversized battery terminals
- Made from durable, heat stabilized 8 AWG silicone wire that maintains its flexibility in cold weather environments
- Engineered to efficiently transfer maximum current flow with minimal power loss
- Compatible with the GB20, GB40, GB50 & GBX45 UltraSafe Lithium Jump Starters

GBC004

BOOST MAX™ 24" BATTERY CLAMPS

- Heavy duty battery clamp design for both 12V & 24V gas & diesel engines in Class 8+/CE high displacement vehicles & equipment
- A robust & rugged design for jump starting both top & side post batteries
- Made from durable, heat stabilized 2/0 AWG silicone wire that maintains its flexibility in cold weather environments
- Provides 24" of cable length
- Designed to efficiently transfer maximum current flow with minimal power loss
- Compatible with GB500 UltraSafe Lithium Jump Starter
