

THE POWER OF

REDARC®

USB CAR CHARGER

NEW PRODUCT RELEASE

REDARC are excited to introduce their newest GoBlock accessory, the USB Car Charger.

Ultra-compact with a modern design and a total maximum power output of 83W, fast charge your devices on the go from an accessory socket, perfect for use with GoBlock.

Compatible with a wide range of devices, the USB Car Charger features intelligent compatibility and both a USB-C and USB-A port, allowing for fast, efficient, and simultaneous charging.

Featuring 5 levels of protection, and a heat dissipation system, the USB Car Charger has been designed and tested to survive in the harshest conditions.

Safe guard your devices, and maximise your charging speed and efficiency with REDARC's USB Car Charger.
