

PRODUCT RELEASE

LED Bulb Range - Signalling Upgrades

To complement the wildly popular LED Bulb Kit - Headlight Conversion range, JW Speaker have now released an extensive range of LED signalling replacement products.

The range includes most of the popular incandescent base types for the majority of applications throughout your vehicle. Anything from front position bulbs to rear stop / tail or indicator bulbs, JW Speaker has an LED replacement to suit your needs.

A resistor kit may be required to allow the LED bulbs to function.

Resistor Range:

Part No.	Barcode	Type	Pack QTY
E70-990160	0708315997830	5W	Twin
E70-990161	0708315997847	25W	Twin
