

THE POWER OF
REDARC®

GOBLOCK INVERTER ACCESSORY CABLE

NEW PRODUCT RELEASE

The GoBlock Inverter Accessory Cable is designed to make connecting a 700W REDARC inverter to your GoBlock a breeze.

Connecting an inverter to your GoBlock allows you to power 240V AC household devices, with a power draw of up to 600W.

The GoBlock Inverter Accessory Cable features lug terminals and an Anderson plug on the opposite end, offering a plug and play inverter solution.
