

LED REAR DIRECTION INDICATORS

EuroLED® Rear Direction Indicator - Amber	 ADR	2133
EuroLED® HCS Rear Direction Indicator - Amber	 ADR	2133-CS
EuroLED® Rear Direction Indicator - Amber	 ADR	2133BL

Low-profile LED Rear Direction Indicator utilising innovative single LED Technology and UWVO (Ultra Wide Visibility Optics) for significantly improved side visibility. Fully sealed to withstand high-pressure washing. Suitable for all common vehicle types. 2133-CS features HELLA patented control technology HCS (HELLA Compatibility Solution) ensuring seamless communication with LED-compatible flasher units. Refer to page 395.

Voltage	Multivolt™ (9-33V DC)
Wattage	2.5W
Mounting	Surface Mount (mounting bushes included).
Lead Length	2.5 metres
Protection	Reverse Polarity and 1.5kW (2133), 5.0kW (2133-CS Transient Voltage Suppressor (TVS). Fully sealed against dust and moisture to IP6K6 and IP6K7.
Spare Parts	<div> <div> 9HD959027007 9HD959027017 9NH959028017 </div> <div> <div>■ Black cover 1</div> <div>■ White cover 2</div> <div>■ Screw boss 3</div> </div> </div>

EuroLED® Rear Direction Indicator - Amber, 24V DC	 ADR	2133-24V
---	---	----------

Low-profile LED Rear Direction Indicator featuring unique UWVO (Ultra Wide Visibility Optics) for significantly improved side visibility.

Voltage	24V DC (Voltage regulated 20-28V DC)
Wattage	5W
Mounting	Surface Mount (mounting bushes included).
Lead Length	2.5 metres
Protection	Reverse Polarity and Transient Spike Circuit Protection. Fully sealed against dust and moisture to IP6K6 and IP6K7.
