TOOLS AND EQUIPMENT

AIR3

The Expert's demand quality equipment, and the Air3 kit provides exactly this with 1HP, twin cylinder Recovery unit, 100kg scale capacity and 156 L/min vacuum pump performance. Add to the kit the digital manifold gauge set with 60" service hoses, the right equipment to successfully, and safely flush AC system contaminants and industry leading AC fluid leak detection dye - the AIR3 has your workshop tool requirements covered.

- A18-5107 R134a Refrigerant Recovery Unit: Twin cylinder, 1Hp. Inc's Oil Separator. (Pg 672)
- A18-5102 Vacuum Pump: 3/4Hp, 156 L/min (Pg 673)
- A18-5111 Electronic Refrigerant Scales: 100kg capacity (Pg 676)
- A18-5109 Premium Halogen leak detector (Pg 687)
- A18-5108N Hydra-Crimp hose crimper suits all hose sizes (Pg 709)
- A18-4943 Flush Gun Kit: With pressure release (Pg 708)
- A18-4515 Manifold Gauge set: Digital display, 1525mm hoses, carry case (Pg 677)
- A18-4965E R134a Service Hose set: 1830mm (Pg 682)
- A18-3906 AC Fluid leak Detection Kit: Inc's Injector, UV Torch, Dye, Adaptors & Carry Case (Pg 691)
 A18-4542 Digital thermometer: -50° > 300° (Pg 701)
 A12-0001 Refrigerant Cylinder: Twin Valve, 22kg (Pg 686)

- A18-4983 x 2pc R12 > R134a Adaptors: ¼" Female > ½" Male (Pg 684)
