AGM Dual Purpose

RV/CAMPING

MARINE

4x4 AUXILIARY

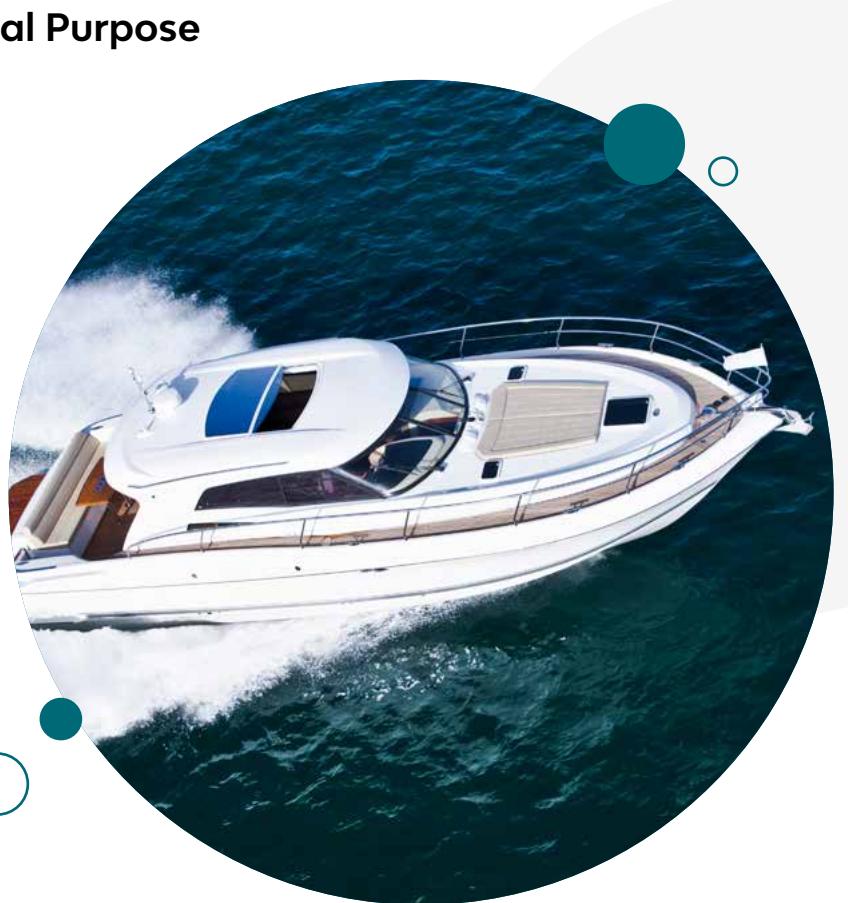

The REMCO Dual Purpose range is the first suitable REMCO battery for under-bonnet installation.

The REMCO AGM Dual Purpose range is a high-cranking and deep-cycle battery in one. Designed for versatility, the AGM Dual Purpose battery has the capability of working as your starter battery or secondary deep-cycle auxiliary power source.

Rest assured that your REMCO can handle the demanding requirements of repeated deep cycle discharges or repeated high cranking discharges, depending on your needs.

Key advantages of AGM Dual Purpose

- High cranking**
- Deep cycle capability**
- Suitable for under-bonnet installation**
- Dual Battery Systems**
- Flexible mounting**
Spill-proof multi position fitment
- Longer shelf-life versus conventional batteries**
- Superior construction**
Greater cycle life vs conventional batteries
