

SINGLE PACK

12/24V HANDBRAKE ALARM

- A audible & visual alarm will be activated if a vehicles door is opened without the handbrake being applied
- The alarm will only stop once the handbrake has been applied
- Suitable for positive & negative switched handbrake switches
- Can run an optional buzzer

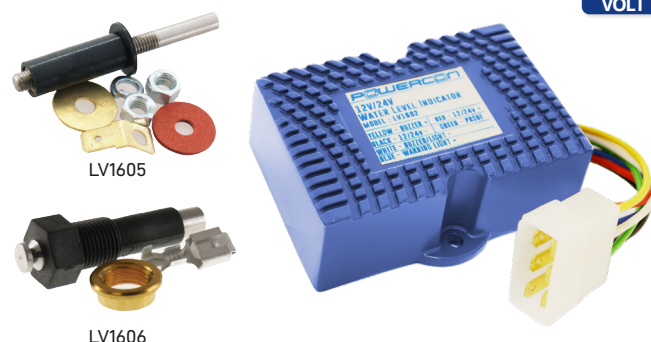

PRODUCT INFORMATION

Part No.	Input Voltage	Dimensions	Weight
LV1650	10-29Vdc	62 x 36 x 21mm	260g

12/24V LOW WATER LEVEL ALARMS

- Suits negative earth systems
- Warning indication by audible buzzer & a dash-mounted lamp
- Suits water based applications in automotive, agricultural, marine & industrial equipment
- Sensor probes available to suit both plastic & metal header tanks
- Light weight construction

Note : Not for Oil or Petroleum based indication

PRODUCT INFORMATION

Part No.	Description	Dimensions	Weight
LV1602	Low Water Level Alarm 12/24V	90 x 45 x 30mm	200g
LV1605	Probe to suit radiators with plastic tanks		
LV1606	Probe to suit radiators with metal tanks		

ELECTRONIC BRAKE CONTROLLERS

- New generation microprocessor based electronic brake controller
- Available in 12V or 24Vdc
- Digital display for accurate setup
- Easy setup via 2 push button switches
- Convenient override slide
- 3 Ramp up levels for brake speed actuation
- Compact & rugged aluminium extrusion
- Suitable for up to 2 Axles
- 24V Model does not require a voltage reducer

PRODUCT INFORMATION

Part No.	Input Voltage	No Load Draw	Maximum Load	Dimensions	Weight
LV1400	9-15Vdc	30mA	2 Axle / 12V 14A	40 x 80 x 125mm	270g
LV1401	18-30Vdc	30mA	2 Axle / 12V 14A	40 x 80 x 125mm	270g
