

A18-4686

Electronic Combustible Gas Leak Detector Suits R1234yf

Broad band of combustible gas detection
Adjustable sensitivity - Audible & visual alarm
Rechargeable batteries and charger included

Sensitivity as low as 5ppm
Suits Hydrocarbons

ROBINAIR

A18-5079

Infrared Refrigerant Leak Detector Suits R134a and R1234yf

Sensing element: enhanced infrared photo optics
Self Calibrating each power-on
Response time: less than one second
Battery life: up to 8 hours continuous use before recharge
Auto OFF: 10 minutes of inactivity
Charge time: less than 4 hours @ 500 mA
Accessories included: wall charger, car charger,

Refrigerants: HFC, CFC, HCFC, blends, and R1234yf
Sensitivity level (per SAE J2791 and J2913):
HIGH: 0.15 oz - 4.2grams /year and higher
MED: 0.25 oz - 7gm /year and higher
LOW: 0.5 oz - 14gm /year and higher
High Quality and Accuracy Testing

ROBINAIR

A18-5109

Halogen Leak Detector - Premium

Microprocessor Control with Advanced Digital Signal Processing
Tri-Colour Visual Display
Real time sensitivity adjustment
Battery test function
Battery voltage indication
True mechanical pumping provides positive airflow through sensing tip
Requires 2 "C" size batteries (included)

Seven levels of sensitivity
Detects All Halogenated Refrigerants
350mm flexible stainless steel probe
1 Year Warranty

ALCIUS
COMPLETE CLIMATE CONTROL

A18-5110

Halogen Leak Detector

Microprocessor Control with Advanced Digital Signal Processing
Colour Visual Display
Real time sensitivity adjustment
Battery voltage indication
Requires 2 "C" size batteries (included)

Seven levels of sensitivity
Detects All Halogenated Refrigerants
350mm flexible stainless steel probe
1 Year Warranty

ALCIUS
COMPLETE CLIMATE CONTROL
