COMMERCIAL 7" AHD QUAD DISPLAY REVERSE CAMERA KIT SURFACE MOUNT

The LV7149 is a commercial grade 7" AHD quad display reverse camera system, suitable for use in heavy truck, mining and industrial applications.

With an operating voltage of 9-32V, it allows for a wide range of fitting applications. It adds safety by giving the user a visual of their surroundings, with 4 camera inputs to allow additional cameras to be connected. The screen can display 1 to all 4 camera inputs at once. Includes a 10m cable with 4 pin screw type connectors, meaning a secure connection between the camera and screen. Sunshade also included to assist in glare reduction.

The heavy duty reverse camera is IP69K rated with 120° viewing angle to give the driver greater vision of their surroundings.
