

BATTERY TRAY

COMPATIBLE WITH FORD RANGER NEXT GEN / VOLKSWAGEN AMAROK NF 2022+

Introducing the new Roadsafe Next Gen Ranger/NF AmaroK dual battery tray, engineered to be as tough as nails and offering an easy DIY solution to the typically complicated process of installing an in-bay second battery. Dual battery trays provide numerous benefits: they ensure you have a solid mounting for your second battery to enable access to ample power for all your accessories and off-road adventures, enhancing vehicle reliability by providing a backup power source, and supporting additional electrical demands without compromising your primary battery. Designed to blend seamlessly with your vehicle's factory finish, the Roadsafe dual battery tray not only looks great but is built to endure the toughest conditions, ensuring your battery setup goes the distance.

EASY DIY SOLUTION

2MM THICK MILD STEEL

BUILT TOUGH TO GO THE DISTANCE
