

# PRODUCT RANGE UPDATE

## LED BULB KIT RANGE UPDATE Optimised for projector headlights

*The ultimate in LED headlight conversion*

Following the recent launch of the reflector optimised LED bulb kits comes the launch of the projector range.

Designed to work best in a projector style headlight, this new range of bulbs is at the cutting edge of LED beam design. The difference between this design and the standard reflector bulb design is the placement of the LED chip boards. The V shape configuration works specifically with the projector lens to produce the smoothest and most powerful beam pattern seen from an LED bulb. The standard projector range is available in H7 and H11 base types.

There is also a specific low beam bulb available in H7 which includes a built in clip adaptor, suitable for Ford FG, SZ Territory, Kenworth T610 Aero, Toyota Camry and a number of other vehicles that use a very specific clip system to hold the bulb into place.

For more information about the products visit [www.invisionsales.com](http://www.invisionsales.com)

### LED Bulb Kit Specifications

Lumen Output:	2000 per bulb
Colour Temp:	6000K
Power:	25W
Voltage:	DC 12/24V
Operating Temp:	-40° / +80° C (130° Max)
IP Rating:	IP65

- This product range is not approved for ADR, ECE or DOT
- CANbus modules may still be required on some vehicles

### LED Bulb Kit Warranty

- 3 Year - Standard Driving Conditions:**  
For normal day to day driving & recreational 4X4
- 1 Year - Off-Highway:**  
For mining and industrial applications

### LED Bulb Kit Contents

- 2 x LED Headlight Bulbs
- 2 x Rubber dust caps (990007PC1 only)
