

WARRANTY

All Air Conditioning compressors supplied by JAS Oceania are warranted for a period of 12 months from the date of purchase. JAS Oceania will accept a claim for warranty providing the following conditions are met:

1. Flush the system.
The system must be thoroughly flushed with an approved solvent to remove any debris or contaminants.
2. Replace the filter drier / accumulator and the T.X. Valve / Orifice Tube
3. The system must be charged correctly with a suitable refrigerant
4. All vehicle applications post 1994 must have the condenser replaced. These Condenser can not be thoroughly flush of debris or contaminants.
5. Fix the system fault.

All other air conditioning components are covered by a 12 month warranty and are subject to inspection by JAS Oceania staff.

CONDITIONS

All claims for warranty must be made within the relevant warranty period, by returning the product to JAS Oceania at the purchases expense. With completed warranty claim form and proof of purchase (invoice number). The warranty dose not apply to failure or damage to the unit caused by incorrect or faulty fitment, contamination by foreign materials or modification carried out by anyone other than JAS Oceania.

JAS Oceania liability pursuant to this warranty shall be limited to JAS Oceania in its discretion by either repairing or replacing the defective unit or providing a credit or refund of its original invoiced price. In no case shall this include any consequential or other costs of removal and refitting any unit.

CREDIT POLICY

All Parts returned to JAS Oceania for credit must be returned within 30 days after Invoice date. Parts returned after this may not be accepted for credit.

Parts for return are required to be in condition as purchased, original packaging and in a resalable condition. Parts not returned in resalable condition may be refused or subject to a repackaging fee. Original Invoice number will be required for the credit to be processed and special buy in or Procured parts will not be accepted.

JAS Oceania supplies parts and components to Specialists with specialized knowledge of our parts and therefore whilst JAS Oceania at all times uses all means to identify the correct parts and or components, ultimate responsibility is on the purchaser to ensure compatibility before fitting. Because of the complex nature and possibility that components and or parts can be damaged by being fitted into faulty or incompatible systems they will not be accepted for credit once fitted.

Product Disclaimer

The information provided by JAS Oceania within the vehicle application guide is presented in good faith and believed to be correct at the time of printing. The information supplied is done so on the condition that the persons receiving the information are responsible for determining the suitability of the parts' use prior to fitment. Under no circumstances will JAS Oceania be responsible for damages of any nature incurred as a result of the information provided.

The recommendations and suggestions regarding product application in this catalogue are provided simply as a guide to assist in correct product identification. Please check O.E.M numbers and unit specifications for correct vehicle application.

Any reference to manufacturers, company names, cross references, part numbers, model numbers or any other specifications or information have been provided purely for identification purposes and in no way reflect products sold by JAS Oceania are of that brand or manufacturer.

Product Identification

To assist in identifying the correct part, check the O.E.M numbers with JAS Sales staff.

For example when identifying a compressor, supply us with the below information:
