

SINGLE PACK

LV8112 12V BATTERY TESTER/ANALYSER

- Tests 12V batteries, cranking & charging systems
- Measures standard CCA value from 100 to 2000CCA
- Battery types: Flooded, AGM flat plate, AGM SpiralGEL, Lithium for motorcycles
- Supports battery rating systems: CCA, BCI, CA, MCA, JIS, DIN, IEC, EN, SAE, GB.
- Tests voltage, CCA, internal resistance & charge
- LCD display screen
- One-click quick function for real-time voltage test
- Short circuit & reverse polarity protection
- Print test results via PC

LV8113 12/24V BATTERY TESTER/ANALYSER WITH BUILT-IN PRINTER

- Tests 12V & 24V batteries, cranking & charging systems
- Input range: 8 - 30V
- Battery types: Flooded, AGM, GEL, Stop/Start(EFB)
- Supports battery rating systems: CCA, BCI, CA, MCA, JIS, DIN, IEC, EN, SAE, GB.
- 1 m Test lead
- Compact design
- LCD display screen
- Menu driven operation
- Built-in thermal printer
- Spark-free reverse polarity protection
- Nylon pouch for storage

COMPANION ITEM:

Part No.	Description	Qty
LV8113P	Replacement Paper Roll	1

LV8101 6/12V BATTERY LOAD TESTER

- Analogue display 0-16V
- Capacity range: 200 - 1000CCA
- Load: 100A @ 12V, 50A @ 6V
- Maximum load "ON" time: 10 seconds
- Cool down time: 2 minutes
- Light weight steel construction
- Heavy duty insulated battery clamps
