Submersible LED Rear Combination Lamp -
6.0m Cable (Pack of 10)

2394-9MBULK

Submersible LED Rear Combination Lamp -
9.0m Cable (Pack of 12)

Submersible LED Stop/Rear Position/Rear Direction Indicator Lamp with red retro reflector. Features modern clear lens design and black mounting base with multiple fixing points for easy fitment to most vehicles and trailers. Designed to withstand temporary water immersion and harsh environmental conditions including long-term exposure to very high UV levels. **Optic appears clear until illuminated in signal colours.**

Voltage Dualvolt (12/24V DC)

Wattage Stop 2W
Rear Position 1W
Rear Indicator 2W

Mounting Surface Mount (horizontal or vertical). Lamp clips into mounting base (multiple mounting holes).

Lead Length 0.5 metre (2394 and 2394BULK)
6.0 metres (2394-6M and 2694-6MBULK)
9.0 metres (2394-9MBULK)

Protection Reverse Polarity & built-in transient spike protection. Fully sealed to withstand high-pressure washing & temporary water immersion.
