VisionLED - LED Replacement Globes

The LED Replacement market has been growing at a rapid rate over the past year and Philips have now developed a program to match the price point of other brands while far exceeding them in product quality and performance. So much so, Philips are willing to back themselves with a staggering 12 Year Warranty!

One of the biggest features with Philips LED technology compared to standard incandescent is the speed at which the light source reaches full illumination. In simple terms, the Philips LED replacement globes will be seen quicker, allowing for faster reaction times for other drivers on the road.

Crossing over from Philips Incandescent to VisionLED

There are FIVE new products launching with this release, all of which have been designed to replace an incandescent bulb:

- E74-12835REDB2 - Replaces - 12066 (Stop / Tail Wedge)
- E74-12836REDB2 - Replaces - 12499 (Stop / Tail Bayonet)
- E74-12838REDB2 - Replaces - 12065 (Stop Wedge)
- E74-12839REDB2 - Replaces - 12498 (Stop Bayonet)
- E74-128006000KB1 - Replaces - 12860LLECO (Interior Festoon)

Fit & Forget - 12 Year Warranty

With an incredible 12 Year Warranty, Philips VisionLED is the perfect option for drivers doing long hours in the vehicle such as taxis and courier drivers. With such a long lifespan, you really can just fit & forget.
