SINGLE PACK

LV automotive™

LV8100
12V DIGITAL BATTERY TESTER

12 VOLT

- LED display with 6 LED's
- Battery voltage check
- Alternator check check
- Compact size & light weight
- Suitable for cars & motorcycles
- Cable length: 250mm
- Blister packaging

LV8110
12V DIGITAL BATTERY TESTER

12 VOLT

- An accurate digital tester that delivers quick results
- Features proven conductance technology & algorithms required for accurate testing
- Large easy to read LED display
- Voltage range 7.6V - 17V
- Operation range: 100 - 1400CCA (SAE)
- Voltmeter mode for testing both the starter& charging system
- Shows available battery CCA at test completion
- Cable length: 400mm
- Tests: SAE, DIN, EN, IEC, & JIS Batteries

LV8111
12V DIGITAL BATTERY TESTER BUILT-IN PRINTER

12 VOLT

- An accurate digital tester that delivers quick results
- Features proven conductance technology & algorithms required for accurate testing
- Large easy to read LED display
- Battery test: 6V / 12V
- Alternator test: 12V / 24V
- Starter test: 12V
- Operation range: 50 - 1400CCA (SAE)
- Voltage range 7.6V - 17V
- Test data can be stored
- Cable length: 400mm
- Suits: SAE, DIN, EN, IEC, & JIS Batteries
