

THE POWER OF
REDARC®

BCDC MOUNTING BRACKET FOR FORD RANGER RAPTOR & EVEREST

NEW PRODUCT RELEASE

REDARC now have available a BCDC Mounting Bracket to suit the next generation Ford Ranger, Raptor and Everest (V6 Models 07/2022 on).

By utilising factory mounting points, REDARC's BCDC Mounting Brackets make installing a BCDC easy.

Each BCDC Mounting Bracket is made from 304 stainless steel and allows for easy installation into the front of the vehicle. In this position the BCDC receives cooler airflow, ensuring optimal performance when charging your batteries.

The bracket is designed to be used with most of REDARC's range of BCDC chargers and comes complete with fitting instructions and fasteners.

BCDCMB-012 BCDC Mounting Bracket
- Suits Ranger, Raptor &
Everest (V6 models)
